

My name is Yvonne Lebron, a current student of RSE. Many of you know me as the Office Administrator at the Children's School of Excellence. I have recently been diagnosed with Breast Cancer, which at this time the cancer has spread into my lymph nodes. The procedures recommended by my doctor involve the removal of most of my left side and possible chest area, radiation and chemotherapy.

It has been difficult for me to stay unemotional, but after doing much research, I am confident there is hope and a plan. I was told of a place in Reno, Nevada called, Century Wellness Clinic. The team is led by James William Forsythe, MD, HMD who treats his patients with integrative medicines and combination therapies. Century Wellness clinic specializes in discovering the cause of the illness and then treating it. They take blood samples and ship them to Germany where they actually separate the DNA strands to find out exactly what is ailing patients and prescribe treatments based on that data. Most of his patients are hospice type individuals who have nowhere else to turn, and with their special practice Dr. Forsythe has been able to save many lives.

After filling out and submitting my form to their Center I was finally contacted by Century Wellness Clinic and I was thrilled to tears. Before attempting any radical surgery, I am humbly seeking treatment by Dr. Forsythe. At this time, I am reaching out to friends and our community for funds to support my initial consultation, tests, room and board, airfare and food for the 15 day treatment. The total I am seeking is \$20,000.00. Raising this amount and a new attitude of hope rather than the fear of death is what it will take to save my life.

Here are the links to Dr. Forsythe and the Wellness Clinic and I ask that you please take the time to view the video. I am certain you would agree that this is where you would send your loved one if they were in my situation.

Your care and contribution will make a difference to my family and my life. Thank you...

Most gratefully,

Yvonne Lebron
